## GRUESOME MURDER

### Chicago Police Working Upon a Mysterious Case.

## 12-YEAR-OLD BOY IS VICTIM

### Head, Torso and Dismembered Limbs of Tuffa Shishehn Found in Pond at Chicago—Supposed To Have Been a Victim of Degenerate.

Chicago, Aug. 8.—The dismembered arms and right foot of Tuffa Shishehn, the twelve-year-old victim of the mud lake murder mystery, were recovered Friday in the pond at West Thirty-first street and St. Louis avenue where the mutilated head was found Thursday.

These latest gruesome discoveries were taken to the county morgue and made complete the body of the murdered boy.

Two men have been arrested in connection with the case. They are Stephen Kandravics, former boarder in the home of the Shishehn boy's parents and Hassin Nemmer, known to the police as "Hassin the Turk," a dealer of notions.

Kandravics was arrested in Racine, Wis.

On Tuesday the detectives were called to Mud Lake, a pond which formed the old bed of a branch of the Chicago river when the waters of the river were diverted to the drainage canal. Here boys had discovered the lower limbs of a human being, severed at the hips and at the knees, and with the feet missing.

The gruesome relics when found were wrapped in an old shirt and a newspaper of July 29. The victim was then supposed to have been a human, but the discovery of the torso the following day in the drainage canal, a mile distant, upset this supposition.

Inspector Dorman held a long interview with Samuel Shishehn and at its conclusion the inspector declared that he had had been the victim of a degenerate. Tuffa was fifteen years old, attended school, and sometimes sold newspapers.

## SEIZED JAP SCHOONER.

### Attempted Raid Upon the Copper Island Seal Rookeries.

Victoria, B. C., Aug. 8.—News has been received here of the seizure while attempting a raid upon the Copper Island seal rookeries on June 27 of the Japanese sealing schooner Miye, one of the two which took part in the raid of June 16, 1905, at St. Paul Island, Behring sea, when five Japanese were killed by guards and twelve wounded.

The Miye, which had sailing boats and was attempting to loot the sealing grounds, was captured by the Canadian patroling cruiser Commander Spring and Captain Nomura and his crew of thirty-one Japanese sealers have been imprisoned at Petropavlesk on the Kamchatka coast. Protests have been lodged by Japanese on account of their imprisonment and a representative has been sent to St. Petersburg.

## DECREASE IN TAX RETURNS.

### Chatham County Shows a Falling Off of \$211,802.

Savannah, Ga., Aug. 8.—Consolidation of the 1908 tax returns for Chatham county, just completed, shows a falling off as compared with the returns of last year, of \$211,802. The total returns are \$24,115,400.

The decrease is largely in mercantile stocks and securities, and is attributed to prohibition and the financial panic. In 1907 Chatham showed an increase of nearly \$1,900,000 over the year previous.

## Auto Skidded; Seven Hurt.

Philadelphia, Aug. 8.—Speeding along on the outskirts of the city late Saturday night, seven persons were injured from a skidding auto and six were injured, one of them probably fatally. Miss Lena Brown, aged sixteen, who was pinned beneath the wheel after it skidded and turned turtle, is suffering from a concussion of the brain and may not recover.

## IN PERIL OF HIS LIFE.

### Thrilling Rescue of Boy from Precipice 600 Feet Above the Sea.

Chicago, Aug. 8.—A dispatch to the Tribune from Los Angeles, Cal., says that a wireless message from Avalon, Catalina island, reports the rescue of Irving Spalding, aged fifteen, a son of A. F. Spalding, of Springfield, Ill., from a precipice 600 feet above the sea, where he had spent the day in peril of his life.

The youth disappeared from the hotel early in the morning. He went to explore the island and climbed the sheer face of the cliff, 750 feet high, as far as he could go, and got within a hundred feet of the top.

Spalding found it impossible to get down, and shouted for help, but failed to make any one hear. He could not sit down and the slightest misstep would have sent him to instant death on the rocks below. His father, as night was approaching, organized a searching party.

After an hour's search they located the boy, weak with fear. The problem of how to rescue him was solved at last by the discovery of a path leading fifty feet down from the top.

A rope was lowered to the youth and he was drawn safely to the top of the cliff.

Aside from the nervous shock, weakness, hunger and terror, the boy is all right.

## WATSON SCORES BRYAN.

### Big Crowd Hears Populist Candidate at Augusta, Ga.

Augusta, Ga., Aug. 8.—Thomas E. Watson, populist candidate for president, spoke to a crowded house Thursday night.

The Grand opera building was filled with adherents of Mr. Watson, and he was literally cheered to the echo. Mr. Watson was introduced by James Cartledge, ex-councilman from the fifth ward, and spoke for two hours. He stated that every vote cast for W. J. Bryan would be thrown away, as he declared the Nebraskan had no chance for the presidency. He asked why the votes which would be thrown away on Bryan could not be thrown away on him, as he was the only real democrat in the race.

Mr. Watson made appeal for the electoral vote of Georgia. His proposition is, that if the vote is given him and Bryan needs it to win in the electoral college he will throw it to Mr. Bryan.

## TO TOUR THE SOUTH.

### Grand Niece of Stephen Foster, Composer, is Coming.

New York, Aug. 8.—Negotiations are completed whereby Henrietta Crossman, who is a grand niece of Stephen C. Foster, the composer of "My Old Kentucky Home" and "Swanee River," and other well known southern melodies, will this fall make a tour of the south, the first she has ever made.

Heretofore, Miss Crossman's time has been so taken up with her New York engagements that a tour of the south has been impossible. This season she requested that her managers book her through the south in order that she might be able to present "Miss Nell" and "As You Like It" among those from whom her family sprang.

## Commission Will Protest.

Montgomery, Ala., Aug. 8.—The Alabama railroad commission has decided to make formal protest to the interstate commerce commission against the raise in rates from Ohio and Mississippi valley points to southern territory on grain and packing house products. The petition is now being formulated and will be sent to Washington in a few days. It will be about the same as that presented by Texas and Georgia, save that it will be by the railroad commission instead of shippers.

## Suit by Insurance Company.

Columbia, S. C., Aug. 8.—The New York Life Insurance company has entered suit against the county treasurer of Abbeville for taxes paid on gross premiums in that county. It is charged by the company that taxes are collected in each county on these premiums and these collections do not constitute property and are unconstitutional. Every insurance company doing business in South Carolina is interested in the result.

## ACTIVE WORK BEGUN

### Democratic National Committee Opens Headquarters.

## CHAIRMAN MACK ISSUES CALL

### He Says that While the Campaign is Young It Has Made a Degree of Progress that is Extremely Gratifying to Democratic Management.

Chicago, Aug. 8.—The headquarters of the democratic national committee in Chicago were formally opened here Friday on the arrival from the east of Norman E. Mack, the national chairman, who announced that from now till election day, the democratic campaign would be waged actively throughout the country. Upon reaching the new offices in the Auditorium annex, Chairman Mack issued a call to the heads of the various sub-committees of the national committee to meet him here

NORMAN E. MACK. Monday to confer on general plans for the campaign which had been outlined.

Chairman Mack will leave Chicago next Tuesday to attend the Bryan notification at Lincoln.

During the day Mr. Mack held conferences with Roger C. Sullivan, national committeeman for Illinois, and other committeemen and democrats influential in party councils. Mr. Mack said:

"While the campaign is young it has made a degree of progress that is extremely gratifying to the democratic management. In all parts of the country heretofore regarded as republican strongholds are now debatable ground and will be swung into the democratic column. I found conditions in the east that presage democratic victories."

"The selection of Senator Culberson, of Texas, as chairman of the advisory committee to succeed former Governor Francis of Missouri, meets with the entire approval of the former Missouri governor, who, himself, will do all in his power to aid in the campaign. Mr. Francis is still a member of the committee, but was unable to serve as chairman because he expected to be abroad much of the time during the campaign."

## MACK NAMES COMMITTEES.

### Senator Culberson Will Head the Advisory Committee.

Buffalo, N. Y., Aug. 8.—Chairman Norman E. Mack, of the democratic national committee, announced Thursday before his departure for Chicago the appointment of a finance committee for the democratic campaign, with Moses C. Wetmore, of St. Louis, as chairman, and John E. Osborne, of Wyoming, as vice chairman, and a speakers' committee, with John H. Atwood, of Kansas, as chairman, and Champ Clark, of Missouri, as vice chairman. The finance committee is made up of twenty-five members, and the speakers' committee is composed of twenty-seven members.

Announcement was also made by Chairman Mack that Senator Charles A. Culberson, of Texas, had been appointed to succeed David R. Francis, of Missouri, as chairman of the advisory committee.

## OVERCROWDED NEW YORK.

### Passenger Traffic in the Streets Becomes Serious Problem.

New York, Aug. 8.—In a report to the building code revision commission, the executive committee of the committee on congestion of population in New York, recommends that within certain business hours all vehicular traffic be prohibited on main passenger streets south of Chambers street. The committee also recommended that an elevator capacity be provided for each tall building that in a brief maximum limit of time would empty the building of all tenants.

Seriousness of the problem of passenger traffic in the streets is indicated by a statement that 35,000 persons pass a given point in a busy thoroughfare in a day, and that during the rush hours as many as 125 persons pass each minute in a street 45 feet wide.

## WOMAN RECEIVED \$15,000.

### Unique Compact Entered into by Girls Seventy Years Ago.

St. Louis, Aug. 8.—Mrs. Margaret Castens, ninety-four years old, who received \$15,000 three years ago as the result of a unique compact entered into by sixty-five girls in a German convent school, more than seventy years ago, died at the home of her daughter in this city Thursday night. Seventy-five years ago Mrs. Castens was a pupil in a convent near Stuttgart, Germany.

The girls agreed that after they graduated they would pay a certain number of marks a year into a Berlin bank and the entire amount was to go to the last surviving member of the class. Three years ago Mrs. Castens found herself the only one of the class remaining. She then wrote to the bank and received \$15,000.

## CARDINAL GIBBONS BETTER.

### Symptoms of Intestinal Indisposition Disappear.

Rome, Aug. 8.—Cardinal Gibbons is very much better and the symptoms of intestinal indisposition have disappeared. The cardinal was taken ill Wednesday at Castel Gandolfo and was brought the next day to Rome.

The possibility of any complication is over. The pope has been informed of the satisfactory condition of the cardinal at which he expressed his great pleasure. Many people have called to inquire regarding the cardinal's health.

## To Complete Extension.

Scottsboro, Ala., Aug. 8.—News has been received here that the Southern railway's extension between Stevenson and Chattanooga will be completed at once. It is understood that the material has been ordered, and is now en route to be used on this line. This work was begun some time ago, but was stopped during the recent financial depression. It will require \$2,500,000 to finish this work, and the money is said to be in sight with which to finance it. This will give employment to many idle men.

## Death Sentence for Officer.

Cullman, Ala., Aug. 8.—John Holland has been found guilty of the murder of H. D. Putnam, at Hanceville, Ala., on July 2, and was sentenced to be hanged on September 18. The case has attracted wide attention, because of the prominence of those involved. Holland was born near Hanceville, and it is said, after telling friends that he was going to Putnam's house to arrest him, shot him, death being almost instant.

## Will Sell Islands.

Mobile, Ala., Aug. 8.—A Moss Point, Miss., special says that on September 24 the government will sell at the land office in Jackson parts of Petit Bois, Horn and Round islands, including the old hospital at Round Island. All of the islands are in the Mississippi sound, and lie to the south of the port of Pascagoula.

## Two Tickets Put in Field.

Wallace, Idaho, Aug. 8.—The Dubois faction of the democratic party which split in state convention, has nominated Frank Harris for congressman; W. S. Whitwell, for governor; William Woods for United States senator and other state officers. The anti-Dubois wing also nominated a ticket.

## YOUNG TURK VICTORY

### New Cabinet Is Formed by Victorious Foes of Sultan.

## GAINS PUBLIC CONFIDENCE

### New Cabinet Is Practically Composed of the Own Regiments of the Young Turks—Sultan Gives Up Certain Claims.

Constantinople, Aug. 8.—The Young Turks have now completely triumphed. A new cabinet, practically composed of their own regiments and commanding public confidence, is established on a constitutional basis, the sultan having given up his claim to the right to appoint the ministers of war and marine.

Kiamil Pasha, who for the third time becomes grand vizier, throughout his career has struggled for a constitutional regime and thence has suffered exile for his opinions. His ministry, with two exceptions, is composed of new men of liberal view. Two of them are Christians; Gabriel Effendi, the minister of public works is an Armenian, and Prince Mavromdaro, the minister of agriculture, is a Greek.

The principal members of the new cabinet follow: Jemaladdin Effendi, the shiek ul Islam, and the minister of foreign affairs, retain their portfolios.

Reshed Akif Pasha, wali of Stivas, becomes minister of the interior; Red-jeb Pasha, wali of Tripoli, minister of war; Arif Pasha minister of marine; Zia Pasha, minister of finance, and Hassan Fehmi Pasha, minister of justice.

Within the space of a fortnight since the proclamation of the constitution, a new regime appears to be firmly established and the court camarilla completely dispersed without any disturbance of order.

## WOULD CHANGE SULTAN'S WAYS.

### Young Turks Make Demands of the Ruler of Turkey.

London, Aug. 8.—The Times correspondent at Sofia says that one of the sultan's envoys captured at Adrianople by young Turks was compelled to swear fidelity to the new regime. Then he was entrusted with a letter to the sultan plainly informing him that he still was under suspicion and that unless he changed his ways he would be mercilessly dealt with.

Various demands then were set forth in the letter, among them one declaring that the sultan should dismiss his harem and henceforth live in European fashion with one wife.

## LOST ALL AT POKER.

### When Daughter Asked Father for Penny, He Attempts Suicide.

Chicago, Aug. 8.—Gus Schoenbeck, laundry foreman, lost \$720 at poker Thursday night and entering without a cent his home at 2607 Robey street, met his seven-year-old daughter, Mary. "Papa, give me a penny for candy," said the little girl.

Silently Schoenbeck stepped into an adjoining room, picked up a revolver and sent a bullet crashing into his body.

At the county hospital it is said he will die from his wound.

## Reached Climax of Trouble.

St. Louis, Aug. 8.—Mrs. Annie Heinemann, hearing gossip that her fifteen-year-old daughter was planning to marry secretly, decided that she had reached the climax of her troubles and ended her life with carbolic acid. She did not believe the girl's denials that she contemplated matrimony. Mrs. Heinemann was fifty-three years old.

## Pistolen Fractured Boy's Skull.

New York, Aug. 8.—A woman ironing on the second floor of a tenement house at Passaic, N. J., accidentally let a piston drop and it bounded out of a window. In its descent to the ground, it struck the head of Joseph Recondie, eight years old, who was playing in the street. His skull was fractured and he will probably die.

## SCHOOL BOARD AP- POINTS TEACHERS

ton, Mrs. E. C. Pearson, Alma Pear-  
son; Thomas, Mabel Townsend; Ty-  
ler, Mrs. Beecher Hague.

County Superintendent Kelley states  
that there are several schools yet to  
be supplied, but he is desirous of fill-  
ing these appointments to the satis-  
faction of those whom the teachers  
will serve. While other appointments  
have been made, the applicants have  
not yet signed the contracts, but Dr.  
Kelley has no fear that the contracts  
will not be signed.

Superintendent Kelley is regarded  
as one of the most efficient educators  
in the State, and has accomplished so  
much along educational lines that  
Alachua is now ranked among the  
first counties in the State. The peo-  
ple of the county exemplified their  
confidence in Superintendent Kelley  
by re-electing him in the last cam-  
paign, when he had strong opposition.

"The schools are becoming better  
every year in Alachua county," re-  
marked Dr. Kelley, in talking over  
the matter when he handed in the list,  
"for the reason that we have become  
well known as an educational county.  
Teachers from everywhere notice this,  
and as a rule they feel glad to make  
an application for a position here. We  
are always glad to give them work  
when we find out they are compe-  
tent."

### Cemetery Fence Progressing.

Work on the cemetery fence will be  
resumed again on Monday, the delay  
being caused from the non-arrival of  
material. This fence will be made of  
Elmwood wire all around the entire  
cemetery, with the exception of the  
front fence, which will be a nice wire  
fence with iron posts, the most of it  
being already completed, and as soon  
as the iron gate arrives it will be  
placed in position.

Mesdames Warner and McCreary  
are still asking for contributions, as  
they have not near enough money to  
finish paying for it. Now, if you have  
loved ones resting in this cemetery  
and have not contributed, send your  
contribution, however small, to these  
ladies. Remember they do not get  
any compensation for their work—it  
is a work of love.

### Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United  
States Express Co., Chicago,  
writes: "Our General Superintendent,  
Mr. Quick, handed me a bottle of  
Chamberlain's Colic, Cholera and  
Diarrhoea Remedy some time ago to  
check an attack of the old chronic di-  
arrhoea. I have used it since that  
time and cured many on our trains  
who have been sick. I am an old sol-  
dier who served with Rutherford B.  
Hayes and William McKinley four  
years in the 23rd Ohio Regiment, and  
have no ailment except chronic diar-  
rhoea, which this remedy stops at  
once." For sale by all druggists.

### Sea Island Cotton.

Savannah, Ga., Aug. 8.—The market  
during the past week was quiet almost  
to dullness and quotations are un-  
changed. There was only a light de-  
mand, and total sales were but 26  
bales. The demand appears to be  
holding off owing to the early arrival  
of a few bales of the new crop. Ship-  
pers of these bales, however, state  
that they must not be regarded as in-  
dicating earliness of the general crop.

The following prices are based on  
factors' quotations and are revised  
weekly on Fridays:

Fancy Floridas, 22@23; fancy Geo-  
rgias, 22@23; extra choice Floridas, 20  
@21; extra choice Georgias 20@21;  
choice Georgias and Floridas, 18; ex-  
tra fine Georgias and Floridas, 15@16;  
fine Georgias and Floridas, 13@14;  
common Georgias and Floridas, 10  
@11.

### A Faithful Friend.

"I have used Chamberlain's Colic,  
Cholera and Diarrhoea Remedy since  
it was first introduced to the public  
in 1872, and have never found one  
instance where a cure was not speed-  
ily effected by its use. I have been a  
commercial traveler for eighteen  
years, and never start out on a trip  
without this, my faithful friend," says  
H. S. Nichols of Oakland, Ind. Ter.  
When a man has used a remedy for  
thirty-five years he knows its value  
and is competent to speak of it. For  
sale by all druggists.

### GAINESVILLE VS. OCALA.

Baseball for the Colored People Dur-  
ing This Week.

The Central City Baseball Team,  
the leading organization of its kind  
among the colored people of the State,  
will have as their guests Monday af-  
ternoon the team from Ocala. A good  
article of ball is assured those who  
attend. The Gainesville team has just  
returned from Ocala, where they play-  
ed three games, two of which came  
their way.

The games here will be called at  
3:15, both Monday and Tuesday after-  
noon.

### Suicide of Captain Purse.

Savannah, Ga., Aug. 8.—Captain D.  
G. Purse, one of the state's most  
prominent men, committed suicide  
here Thursday by shooting himself  
through the temple. The rash act  
was committed at 11 o'clock in the  
morning. No cause has been given  
for the deed. His advanced age,  
worry and the fact that several large  
business ventures in which he was in-  
terested had failed because of the re-  
cent financial troubles, are given as  
the cause, combined, for the suicide  
of Captain Purse. No letter was left  
by him.

### Pythian Elect Officers.

Boston, Mass., Aug. 8.—With the  
election of their officers Thursday the  
supreme lodge of the Knights of  
Pythias closed the most important busi-  
ness session of their twenty-fifth con-  
vention, which opened in this city  
Monday. The Pythian Sisters also  
elected officers and exemplified the se-  
cret work of the order. Henry P.  
Brown, of Cleburne, Tex., was elected  
supreme chancellor without contest,  
he having served as vice chancellor  
the past year.

### Macon Plans for Big Fair.

Macon, Ga., Aug. 8.—At an enthu-  
siastic meeting of citizens and busi-  
ness men at the Hotel Lanier plans  
were made to hold a state fair in Ma-  
con late in the fall. Members of the  
State Agricultural society, on the fair  
committee, were present, and not only  
gave their assistance in making out  
the details, but they strongly support-  
ed the enterprise. A large number  
of Macon's best business men will  
have charge of the enterprise.

### Money Raised for Zeppelin.

Berlin, Aug. 8.—In addition to the  
governmental grant of \$125,000 to  
Count Zeppelin for the construction of  
another airship, it appears probable  
that the count will be given even a  
greater sum for the construction of a  
new dirigible balloon on the model of  
the one that was destroyed recently.  
Almost every city in the empire has  
opened public subscriptions to raise  
money for the count.

### What a New Jersey Editor Says.

M. T. Lynch, editor of The Phillips-  
burg (N. J.) Daily Post, writes: "I  
have used many kinds of medicines  
for coughs and colds in my family but  
never anything so good as Foley's  
Honey and Tar. I cannot say too  
much in praise of it." J. W. McCol-

### Real Estate Transfer.

Dr. J. L. Kelley has sold to Judge  
Horatio Davis the cottage on West  
Magnolia street, formerly occupied by  
Robt. E. Davis and family.

This is a neat cottage of six rooms,  
and is in a most desirable location.  
Friends of Judge Davis are congrat-  
ulating him upon the purchase.

NEWS OF CITY AND  
COUNTY CONDENSED

Robert Arnow, the liveryman of Micanopy, was in the city yesterday. Mr. Arnow is an old Gainesville boy, and has many friends here who are always glad to see him.

A. L. Pooser, division trainmaster of the Atlantic Coast Line, left yesterday for Worthington Springs, where he will spend Sunday pleasantly with his friends, many of whom are congregated there for the summer.

Wade Coleman, one of the progressive colored farmers of the Micanopy trucking section, was in Gainesville yesterday. He is an old subscriber to The Sun and says that he would not be without it for anything.

Dempsey & Richardson have opened a first-class restaurant in the round building which will hereafter be known as the "City Cafe." They will make a specialty of short orders and will serve regular meals. Give them a call.

Orino Laxative Fruit Syrup is sold under a positive guarantee to cure constipation, sick headache, stomach trouble, or any form of indigestion. If it fails, the manufacturers refund your money. What more can anyone want? J. W. McCollum & Co.

G. Hartwell Kelley, wife and children, have gone to Balsam, N. C., where they will spend the remainder of the heated term. Mrs. J. L. Kelley has been at Balsam for some time, and friends will be glad to learn that her condition is very much improved.

A. U. Hilleary of Micanopy was in the city yesterday. Mr. Hilleary states that he has associated himself with Mr. Ford, and that the firm will operate a moss mill and ginny. Both are men of ability, and there is no reason why this venture should not pay.

The Gainesville Furniture Company have an announcement in this issue with reference to the superior quality of the Bernstein bed, the three-piece bed. If you are contemplating the purchase of anything in the way of furniture it would be to your interest to call and inspect the stock of this establishment.

In justice to the sexton at the cemetery, we have been requested by the president of the Cemetery Association to say that she has had to have him help work on the fence in order to save expenses and the yard must go neglected until the other work is completed, when she hopes to be able to give him an extra man to help put the grounds in a good condition.

Prof. W. H. Cassells, the newly-appointed principal of the Gainesville Graded and High School, left yesterday for Forsyth, Ga., where he will spend a few weeks prior to the opening of the school with relatives and friends. Prof. Cassells is regarded as one of the finest teachers in the state, and will no doubt make a fine success of the Gainesville school.

Misses Lontie and Helen Holder of

## EASY TO MOVE

Nothing is more exasperating to the housewife than a bed which is hard to move.

With this special thought in mind BERNSTEIN BEDS are all equipped with large-size, easy-running castors which allow the bed to be moved easily, and with no danger of damage to carpets, rugs or matting. The rollers are made of genuine lignum vitae—the hardest wood that grows—shelacked and polished.

The Bernstein Attachment.

The Bernstein is the original three-part bed. The Bernstein Attachment (covered by patents) holds the side rails or frame to the foot and head. Very simple in principle, yet holds the bed rigid and firm. Joints can not rattle or shake. Head and foot stand perfectly erect and solid. Easily and instantly detached. In half a minute the BERNSTEIN BED can be taken down without tools or hammer—just the hands alone. Any woman, any man can do it.

This is the attachment that makes the only practical three-piece bed made.

It is a remarkable fact that a full-sized Bernstein Bed—either Enamelled or Brass—will sustain an actual weight of twenty-five ordinary persons or nearly two tons. This extreme strength, with absolute rigidity, makes the Bernstein Bed an article of household utility that will last a lifetime—can be handed down from generation to generation.

Holder and children are expected today, and will proceed immediately to Santa Fe, where they will join the merry reunion crowd.

## BEXLEY-OSTEEN, CASE.

Judge Mason Fixed Bond at \$1,000 Each for Appearance at Fall Term.

The case of the State vs. W. A. Bexley and Truby Osteen, charged with the murder of W. H. Moreland, was concluded before Judge Mason Saturday, and after a thorough deliberation the court decided that the defendants in the case should be held in the sum of \$1,000 each for their appearance at the next session of the grand jury.

The evidence was rather conflicting, and the young men who are defendants are yet hopeful that they can prove their innocence. The bond was rather small, in the opinion of many who had watched and listened to the proceedings of the court. It is said, however, that both young men who are defendants in this case are characters of the highest order, and friends are loath to believe them guilty. The defendants have not yet given bond, but it is expected that they will do so on Monday, as friends are arranging to give them their liberty.

## HELD MONTHLY MEETING.

Kirby Smith Chapter Held Interesting Meeting at Home of President.

Kirby Smith Chapter, U. D. C., held a very interesting meeting Thursday afternoon at the home of their president.

The chairman of the credentials committee reported Mrs. Walker's, Miss Louise Walker's and Mrs. Charles Birt's credentials correct and sent on to the State Registrar.

Resolutions of sympathy on the death of Mrs. Edwin Gardner Weed were adopted and a copy of them sent to her family. Mrs. Wainwright also read a telegram of sympathy sent by her for the Chapter to Rev. E. G. Weed and family on the day of Mrs. Weed's death.

## SEVERE WIND STORM.

Lightning Played a Heavy Part, in Which Mr. Wood Lost Cow.

Report comes to this city of a severe wind and lightning storm at Evinston on Thursday, in which H. D. Wood of that place lost a fine cow by being struck with lightning. A number of palmetto trees were struck and set on fire, being materially damaged.

A negro, whose name has not been learned, was under one of the trees, and the stroke stunned him, but no further results were noted.

LETTER TO EDDINS MFG. CO.,  
Gainesville, Florida.

Dear Sirs: Your manage men and machinery; no one knows better than you that one man is worth more than another; that one machine is worth more than another machine. Sometimes you pay the man more, sometimes you don't; sometimes the machine costs more, sometimes it doesn't. The difference is, sometimes, two or three to one, and costs not a cent.

So with paint, and more too; the paint that does best service makes a less first cost of the job—you can paint Devco at less expense than the meanest stuff you can get.

It is like a good steady man or machine; but goodness and steadiness have to be paid for in men, in machines not always, and never in paint. Paint is cheap in proportion to strength.

It is pure paint that is steady and good; it is paint adulterated that is tricky. There is enough paint in the worst of these mixtures to look and feel like paint, and enough adulterants (whiting, china-clay, barytes, ground stone, benzine, water) to make two gallons of one.

There are eight pure paints in the United States; we know of no more; there are 200 adulterated. We analyze all, and know what they are made of. Pure isn't all; you want strength. The least-gallons paint is Devco.

Yours truly,  
F. W. DEVCO & CO.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column costs a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

As suggested by Col. W. J. Bryan, Democratic candidate for President, The Sun will receive contributions to the Democratic campaign fund, and forward same to the National committee. No subscription of less than one dollar will be received, and the names of all contributors will be published in The Sun, unless otherwise requested. Receipts for all money forwarded to the National committee will also be published. Send in your subscription and help the cause. The committee "needs the money."

The idea that W. H. Taft at any time in his career, even at a Sunday school, should pose as a fairy takes on the ridiculous without suggestion.

Senator Allison's death in Iowa is likely to bring to a focus the division of Republican factions in that State, which may cause the election of a Democratic Senator and the loss of the State to Taft. Let the good work go on.

Will Bryan carry the State of Georgia? The great and untortured hosts of Democracy of this State say he will, notwithstanding Watson, Graves Hitchcock et al. Georgia was the first Southern State to free herself from carpet rule, and we do not believe she will be the first to break the solid South.

Mr. Broward couldn't go to Washington, but he went to Denver, where he did valiant service for the cause of real Democracy.—Exchange. And that's more than some would have done who wanted to go there.—Pensacola Journal. Tell us all about it. What did the Governor do or say to cause the mantle of national greatness to fall upon him?—Ocala Banner. Yes, do. The people of Alachua county especially are anxious to learn something about the great work Governor Broward accomplished at Denver.—Gainesville Sun. Why he worked three days on platform planks that were not adopted. There was enough material on hand, and his hard work was placed in the back yard of the committee.—Lake City Index.

A more orderly excursion was never conducted than that of a few weeks ago to Palatka. With possibly two exceptions everybody left Gainesville sober and returned in the same condition, nothing occurring to mar the feelings of any lady on the train. But what a difference in the excursion from High Springs to Ocala via Gainesville last Friday! The entire trip from Ocala to Gainesville was a scene of drunken rowdiness among many of the white people, and beasts in human form "swigged" down whiskey in the presence of ladies. Several young boys were even among the number of drunks, and had it not been for the especial vigilance of the railroad employees in charge of the train more than one life would probably have been sacrificed. Palatka is a dry town. Ocala is wet.

## LIVE STOCK IN FLORIDA.

There is no longer any discussion as to the fact of this State's suitability for the raising of all kinds of live stock, as in too many localities the question has been settled in favor of the practical and every-day demonstration that the State is well adapted for this purpose. We can point out many individuals within our limited scope of information who have made a success of this business. Horses, cattle, hogs and all other kinds of live stock are being successfully raised at a large profit, and we often wonder why it is that our people do not make this one of their main occupations. But it is with regard to the industry of raising goats that we particularly desire to call the attention of the public. There is no animal which is so free from disease as the goat; no animal is so prolific; no animal can be raised with so little care and feed, and we confidently state that with a very small outlay in a few years there can be reaped a rich harvest; for with a herd of say one thousand head the revenue will be enormous, as oftentimes within one year the increase is as much as from sixteen hundred to two thousand per cent. The flesh of the goat is as palatable as the best mutton, and they do not require as much care as sheep. The hides of goats are worth doubly as much as sheep hides, and the importation of goat hides into this country amounts up to many millions of dollars.

With a thousand head of goats there can be soiled and well fertilized at least two hundred acres of land each year, and by such soiling and fertilizing your lands will become fertile and productive beyond expectation.

There is no limit to the profit arising from the raising of goats, and with but a small effort on the part of our farmers there will be no fertilizer bills; and your lands will each year increase in value and all the time you can have a fresh kid for your breakfast or dinner. One of the things we do not understand is why the farmer does not have his herd of goats.

## THE BRICK CITY.

The editor of The Sun spent a few hours in Ocala last Friday evening, which was the first time he had visited the place in six years, and we were agreeably surprised to note the many substantial improvements during that time. Six years ago there was an old wooden court house in the middle of the public square, the streets were knee deep in sand, and a decent sidewalk was the exception. Now there is not an inland town in the State where there is a more attractive court house, adorned with an especially beautiful lawn, a monument to the Confederacy erected by the United Daughters' chapter of the city, fine cement sidewalks around the square and in nearly every other section of the city, and vitrified brick pavements.

Ocala has certainly made rapid advancement during the past six years, and we hope the good work will continue.

Unlike Gainesville, they have paved the square with vitrified brick, where the property brings a good rental, and owners could better stand the expense, consolidating the work in one section at a time and getting results for the expenditure of the people's money. It would pay the municipal authorities of Gainesville to follow the example of Ocala, cease using worthless rock as paving material, and put down vitrified brick, which is the only material fit to be used for street pavements.

Your publicity problem is half of your store problem. It should have the attention of "the boss."

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENNY & CO., Sold by druggists, Toledo, O. Take Hall's Family Pills for constipation.

## GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mannell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '18, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes—50 cents and \$1.00. C. S. Bodiford & Co., Special Agents.

## FLORIDA NEWS..

Special election will be held in Panama on Monday, August 24th, to vote on bonding for \$50,000 for a new waterworks system.

About seven miles of paving is soon to be laid in West Tampa. The work will require 5,000,000 bricks and 100,000 lineal feet of granite curbing.

The contract has been let and work will begin in a few days on Plant City's new postoffice building which, when completed, will have cost something like \$10,000.

The first bale of new cotton to be ginned from the crop of 1908, in Jackson county, was hauled into Marianna on Monday, August 1, by Lonnie Williams, a thrifty colored farmer on the Williams plantation. The bale weighed 140 pounds and graded better than the others.

The county commissioners of Duval county have fixed the tax rate for this year at the same figure as last year, namely, 16 mills, divided as follows: 7 mills, general revenue 5 mills, interest on bonds 2 mills, fine and forfeiture 1 mill, outstanding indebtedness 1 mill.

July was a dull month in the shipping business, according to reports compiled by custom house officials of the month's business. Not only was a number of vessels to arrive smaller than any month previous in a year, but the valuation of exports showed a big decrease, the total being \$743,589.—Pensacola Journal.

Mr. James Carnell of Ormond, who every summer goes to Lemon City to manufacture guava jelly, putting up 10 carloads or more, has again loaded himself in Filer's packing house, and is putting up his machinery preparatory to making another supply of the delicacy. The guava crop this year will be as large, if not larger, than in previous years and Mr. Carnell expects to put up more than his usual supply of jelly.

While swimming with some boys in the Mile creek, near Ft. Pierce, Monday morning, Claude Walker, the 12-year old son of C. Walker, was drowned. The boys were engaged in a diving contest and Claude, evidently attempting to out do the others, was overcome. His companions immediately went to his assistance and did everything in their power to resuscitate him, but in vain. One boy ran the way to Fort Pierce and summoned Dr. VanLandingham who immediately went to the scene of tragedy and found young Walker cold in death.

The Eagle Fish Company at Sebasco possesses an innovation in the way of a floating fish-house that is novel as it is practical. The big house is 50 feet long by 16 wide, decked and housed to withstand heavy weather and provides plenty of room for packing fish, has ample room under the decks for storing six tons of ice, cooking and sleeping, and equipped with three big gas engines that haul her along six miles per hour. When the fish suddenly desert one of the hauling grounds for another the big boat can follow them on short notice.

## ALL PRUDENT BANKERS

Before making loans, or agreeing to give any person or firm a certain line of credit, require a thorough statement of the affairs of the prospective borrower. If this statement is satisfactory, and shows that it is the policy of the borrower to conduct his business prudently and economically, the banker grants the loan.

## ALL PRUDENT DEPOSITORS

Should be just as careful to look into the affairs of the Bank in which they deposit their money—satisfy themselves that the Bank is conservatively managed before depositing their money. Depositing in a Bank is practically the same thing as loaning your money to the Bank, and you are entitled to know something of its affairs. See our last statement.

## GEORGIA LEGISLATURE.

## Near Beer Saloons To Be Taxed \$200 Per Annum.

Atlanta, Aug. 8.—What will go down in the journal of the house of representatives as the busiest day of the session, was that which was held Thursday morning, when the Wise amendment to the general tax act, taxing near beer places \$200 annually, was passed, and following it, in quick succession, the house appropriated \$208,325 to the various institutions of the state.

Mr. Wise's amendment to the original bill struck out all reference to alcohol, and placed a straight tax of \$200 per annum on all places dispensing near beer, and taxed all manufacturing plants and distributing agencies \$200 per annum.

## Agricultural Education Day.

Thursday was a banner day for agricultural education in Georgia, for nearly \$150,000 was appropriated for the agricultural colleges in the state, and if the measures passed are finally enacted into laws, as it seems they will be, the State Agricultural college at Athens will be opened on time, in September, as will the eleven district agricultural colleges of the state.

The double daily sessions of the house seem to meet with favor among the solons, who seem determined to push things with a rush from now on until the date of adjournment. The object seems to be to avoid an extra session, if possible.

By a vote of 21 to 16, after about two hours' discussion on the subject, the senate Thursday morning killed the bill of Senators Peacock, Howard and Brock, placing the solicitors general of the state on a salary.

This bill was the subject of heated discussion, and a hot fight was made by the authors, as shown by the closeness of the vote.

By a vote of 20 to 19 the senate also killed the bill of Senator Overstreet to create the new county to be known as Georgia.

## FAREWELL LUNCHEON.

## Reception To Be Tendered Ambassador O'Brien by Jap Society.

New York, Aug. 8.—Thomas J. O'Brien, United States minister to Japan, who sails for that country on Aug. 12, will be tendered a luncheon by the Japanese Society of New York next Tuesday.

Invitations have been sent to about two hundred, including President Theodore Roosevelt, the members of all the legations at Washington and many prominent army and navy officers and government officials.

Mr. O'Brien was formerly minister to Denmark and was sent to Japan a year ago. He has recently been visiting his home and the reception and luncheon will be in the nature of a farewell.

After falling from a persimmon tree and breaking both arms while on a hunt for the fruit in the woods near his home Sunday afternoon, Horace Gordon arose from the ground, walked to his home half a mile and calmly told his parents what had happened. The nerve of the young boy is astounding. With a younger brother, Richard, he went persimmon hunting Sunday afternoon. Spying the tree well-laden with the fruit he climbed and while reaching out for a twig filled with persimmons, lost his hold on a limb and fell to the ground. Both arms were broken and his face was painfully scratched. His brother witnessed the fall and accompanied him home. Dr. MacKethan was summoned and soon had the broken limbs set and the scratches dressed. The lad is getting along nicely and will soon be able to be out again.—Tampa Tribune.

## S.S.S. HEALS SORES AND ULCERS

Sores and Ulcers are indications of impure blood. They show that the circulation has become infected with germs and poisons, which are being constantly discharged into the open place to irritate the delicate nerves, tissues and surrounding flesh and keep the sore in a state of inflammation and disease. Whether these impurities in the blood are the result of some debilitating sickness, an old taint from a former disease, or whether it is hereditary bad blood, there is but one way to cure sores and ulcers, and that is to purify the blood. Washes, salves, lotions, etc., are often beneficial because of their cleansing, antiseptic effects, but nothing applied to the surface can reach the blood, where the real cause is, and therefore cannot cure. S. S. S. is the remedy for sores and ulcers of every kind. It gets down to the very bottom of the trouble and removes every trace of impurity or poison, and makes a lasting cure. S. S. S. changes the quality of the circulation, so that instead of feeding the diseased parts with impurities, it nourishes and heals the irritated, inflamed flesh and causes the ulcer to fill in with healthy tissue by supplying it with pure, rich blood. Book on Sores and Ulcers and any medical advice desired sent free to all who write.

## AROUND THE CONTINENT.

## Small Gasoline Yacht Makes Remarkable Trip.

Savannah, Ga., Aug. 8.—Four years out from Philadelphia, the gasoline yacht Hazel, owned by D. M. Leonard, of Philadelphia, reached Savannah Thursday and left again for its home dock.

The yacht, driven by gasoline, went up the Atlantic coast, passed down the St. Lawrence through the great lakes, crossed to the Mississippi and followed the river to the Gulf of Mexico, rounded Florida and came up by the inside route to Savannah.

Captain Winters has been with the vessel on its long voyage. The craft is 41 feet over all, and made the entire trip without an accident.

## Puglist, Heat Crazed, Suicides.

New York, Aug. 8.—Probably crazed by the heat of the last few days, Robert Turnbull, a prominent operator in suburban real estate, formerly a professional puglist of some note, shot and killed himself in his home in Borough Park, Brooklyn, Mr. Turnbull is said to have been formerly an amateur lightweight champion of America. He fought against Jack Dempsey for the professional championship three times and was defeated after fighting two draws.

## What is Best for Indigestion?

Mr. A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at all drug stores.

## Insurance Losses To Be Paid.

Mobile, Ala., Aug. 8.—A Scranton, Miss., special says that news has reached here from Kingston, Jamaica, that the insurance losses which occurred from the earthquake there some time ago, amounting to about \$4,000,000, was to be paid to the policy holders, and that there would immediately follow a great demand for lumber and consequently this port will come in for a large share of this demand.

## Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists.

## Miller Not to Hang.

Birmingham, Ala., Aug. 8.—Governor B. B. Comer Friday committed to life imprisonment the sentence of S. Clarence Miller, who was to have been hanged in this city. Miller was tried and convicted of the murder of Fred W. Ransom, a well known saloon keeper, about a year ago. The governor spent almost the entire day receiving delegations to enter pleas in behalf of Miller.

## Baby Morphine Fiends

## Packet Line Insolvent.

Scranton, Pa., Aug. 8.—Unable to profitably run its steamboats because of low water in the Ohio river the Pittsburgh and Cincinnati Packet line, one of the largest transportation lines plying that river, has become insolvent and gone into a receiver's hands. Judge Archbald, in the United States court for the middle district of Pennsylvania, received here the petition through Attorney Harry A. Jones of Pittsburgh, and named Captain James A. Henderson receiver with a bond of \$50,000.

## Disagreeable at Home.

Lots of men and women who are agreeable with others get "cranky" at home. It's not disposition, it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

## Battling Robinson the Winner.

Vallejo, Cal., Aug. 8.—Battling Robinson, of the cruiser California, won the heavyweight championship of the navy by knocking out Arthur Holmes, of the cruiser Maryland in the fifth round. The first was a hard one, and both men severely punished. Robinson put Holmes out with a right hand swing to the jaw. The fight was witnessed by 2,500 officers and men on board the Maryland, but there were no civilians present.

## A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food, the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after-effects. Price 25 cents a bottle. Sold by W. M. Johnson.

## OUR WEEKLY LETTER FROM NEW YORK

Pongee Still Without a Rival for Motoring Wear—Adaptations of Unusual Materials—Cotton Crepe a Most Desirable Fabric for Summer Frocks—Revival of Raffia.

BY MONS. GENE DE PONTAC.  
Motoring outfits grow more elaborate each year, as the fad settles down more and more into the status of a habit—and also more attractive. The very newest motoring bonnet—French, of course—is most picturesque, made on the accordion-pleated Shaker outline, extending far out over the eyes and giving complete protection from sun and wind. It is made of taffeta or satin, very light in weight—and sometimes, if for evening wear, even of chiffon, edged with lace ruffles. Over it is wound the chiffon veil, which is now worn of almost any length—so that it be extremely long—and about three yards wide.

The long linen coat makes a very good garment for summer motoring and can be had in many modish models, far removed from the old-time "linen duster," but pongee is really the ideal fabric—closely woven enough to keep off the dust, light in weight and easily laundered. The sleeves and body of the motor-coat are often cut in one, the loose sleeves sometimes being so draped that they can be drawn about one in the car; touches of color—old blue, golden brown or vivid green—are usually added in collar and cuffs or little wheel-like ornaments of gold braid and gold buttons. A dotted foulard lining of a contrasting color adds a pretty touch.

Black and white checks are much liked for automobile wraps, with a touch of scarlet and gold in collar and cuffs. The newest cape for fall motoring wear is to be the long mil-

tary German model, with all's through which to thrust the arms, made of Scotch tweed with a reverse of tartan, or plaid outside and a solid color within.

Having made their coats of flowered chair-coverings and their dancing-frocks of mosquito netting, women are now fashioning their shirt-waist suits of coarse unbleached muslin, and when well tailored, the result is exceedingly smart. The trimming is usually formed of bands of cretonne or solid colored muslin—dark blue or deep red being effective.

Another fad of the moment is for making cotton jumper frocks of American calico—the old-fashioned fabric still universally worn in many country districts. Gay red and white calicoes, trimmed with pipings and bands of turkey red, pearl buttons, and gumpes and stock of soft white mull, make very clever little morning gowns.

Cotton crepe is material that has been much used in Paris, out whose advantages do not as yet seem to have been appreciated in this country. The material itself is soft and pretty, and when soiled requires only washing, drying and shaking to be ready for wear again. It has been somewhat used here for waists, but abroad it is made up into charming tailored coat and skirt costumes for the country, trimmed with bands of plain white linen and large fancy buttons. Also quite French are the new coat and skirt costumes of white taffeta, trimmed with bands of white

linen and linen-covered buttons. A double-breasted waistcoat of the linen has large gold buttons, and the loose, half-long paletot is adjusted in the back by a belt. This costume is exceedingly new and exceedingly chic.

There is a midsummer fad in Paris for accessories made of raffia. It is principally used for parasol handles, the grass being knitted about a light bamboo frame, and belts, belt buckles, buttons, hat pins and hat trimmings are made to match in combination of grass, linen and often times precious or semi-precious and imitation stones.

Never was there such a season for "matching" as this—every smallest detail must be carried out to ensure a costume perfection. Now it is the colored handkerchief, which is being more and more used, but must of course be carried only when it matches some other note in the ensemble.

### THE NECK RUFF.

It Reached Its Full Glory in the Sixteenth Century.

One of the most peculiar and interesting evolutions in historic fashion is the growth and development of the ruff in England. This ruff began its career as a humble little something like a tuck running along the top of the chemise from shoulder to shoulder. You can see it grow in the portraits of royal personages slowly, but surely, like a great linen flower opening its plaited petals from generation to generation. During the reign of Henry VII. it was scarcely more than a budding excrescence, but with Henry VIII. it had outgrown its tuck stage to the extent of reaching up to the ears and was beginning to sport a mild flare. Those were the days of such strict sumptuary laws that in order to wear black gomet you must be royal, to wear sable you must outrank your viscount neighbor, to wear marten or velvet trimmings you must be able to show an income of over 200 marks a year. The reign of Edward VI. and Queen Mary merely fostered the ruff without encouraging it to any greater development. But Queen Elizabeth, seeing in it possibilities for offsetting her red hair and clear skin, fanned it into vigorous life. In the sixteenth century the ruff burst into full bloom. Men and women, even tiny princesses, were overshadowed by the stiff rays of the ruff on all great occasions. Even over France, Germany and Italy it spread its white pinions and held unquestioned sway until it fell with the Roundheads.

### The Burnt Cork Circle.

"Mistah Middelman, Ah has ah riddle."

"Mr. Bones, we shall be delighted to have you propound it."

"Yessah, but hit ain't nothin' lak dat. Ah jest desires to ax yo' what am de difference between ah storekeeper whose business is improv'n' an' a man who selects feathers fo' sofa pillows?"

"That's a pretty hard nut to crack, Mr. Bones. Now, what is the difference between a storekeeper whose business is improv'n' and a man who selects feathers for sofa pillows?"

"De storekeeper's business is pickin' up, an' de other man's business is pickin' down."

"Mr. T. N. Orr will sing the pathetic ballad, 'He Married Himself to a Marcel Wave, an' Now He's All at Sea.'"  
—Harper's Weekly.

### BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

### A SHORT SPEECH.

Made by an Indian Chief in Reply to a Government Agent.

Old Shah-bah-Skong, the head chief of Mille Lac, brought all his warriors to defend Fort Ripley in 1862. The secretary of the interior and the governor and legislature of Minnesota promised these Indians that for this act of bravery they should have the special care of the government and never be removed.

A few years later a special agent was sent from Washington to ask the Ojibways to cede their lands and remove to a country north of Leech lake. The agent asked my help. I said:

"I know that country. I have camped on it. It is the most worthless strip of land in Minnesota. The Indians are not fools. Don't attempt this folly. You will surely come to grief."

He called the Indians in council and said:

"My red brothers, your great father has heard how you have been wronged. He said, 'I will send them an honest man.' He looked in the north, the south, the east and the west. When he saw me, he said, 'This is the honest man whom I will send to my red children.' Brothers, look at me! The winds of fifty-five years have blown over my head and silvered it with gray, and in all that time I have never done wrong to any man. As your friend I ask you to sign this treaty."

Old Shah-bah-Skong sprang to his feet and said:

"My friend, look at me! The winds of more than fifty winters have blown over my head and silvered it with gray, but they have not blown my brains away."

That council was ended.

### Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Circle of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by all druggists.

### Vigorous Youngsters.

Lady—I am looking for a governess for my children.

Manager of Intelligence Office—Didn't we supply you with one last week?

"Yes."

"Well, madam, according to her report you don't need a governess; you need a lion tamer."

### His Reasoning.

The many young friends of Geo. S. Merchant, Jr., will be glad to know that he is able to be up again. He has been confined to his room for the past two weeks with fever.

W. J. Howell, who lives about seven miles out to the north of town, was in Gainesville yesterday and called at the office, renewing his subscription to The Sun for another year. He reports that his section is badly in need of rain again.

Mrs. J. H. Truby and two little boys, Duke and Bill, will leave today for their home in Portland, Oregon. Mrs. Truby has been in Gainesville for the past several months with her father, S. V. Duke. Mr. Duke will go as far as Jacksonville with them.

Several of our Gainesville young ladies took advantage of the excursion to Ocala to visit Miss Grace Ballis. Miss Grace has been in Ocala about two years and has made many friends in the Brick City, but this does not keep her many Gainesville friends from wishing for her return home.

G. W. Bennett, who has for the past several months been employed by J. S. Bodford & Co., is now in Crystal River, where he is holding a similar position. He instructs the business manager of this office to have The Daily Sun sent to his address there, stating that while he is away he has lost none of his interest for Gainesville.

Manager Cagle of the Gainesville Furniture Company expects to leave soon for the Eastern markets to make selections for the fall and winter stock. The business of this enterprise has grown to enormous proportions within the past two years or more, and no city in the State can boast of a more up-to-date house-furnishing establishment.

## A WARNING

I have learned that certain persons are representing themselves as my agents, and taking orders for large pictures, claiming I will finish them. In some cases the pictures given them have been lost—pictures of dear ones which cannot be replaced. I have no agents, never did, and never will. I deal directly with my patrons for all work. I cannot afford to pay an agent out of the prices I charge for the high-grade work I do. Bring your enlarging to me and you are not only insured against loss of the original, but will have a guarantee of a faithful likeness and an artistic finish.
